

Simmons Titan 70 Firmware Release Notes

To update your Titan 70 module:

Note: This will reset any settings and user kits you have in the module.

1. Connect a USB cable from your computer to the module.
2. Open *Simmons Flash Upload* for Mac or Windows, available from the [Simmons website](#).
3. The software should alert you that the module is connected and will report the current firmware version.
4. Click the Browse button in the application, select the ROM file that you downloaded. The update file needs to be Un-Zipped and should end with ".bin" or ".rom"
5. Click Update.
6. When the update is complete, disconnect the power to the module and then plug it back in.
7. Hold + and – while powering on to reset the module.

Changes in Firmware Version 20231221:

- Some drum sounds were incorrect, like "PrICstBrCS."

Changes in Firmware Version 20230404:

- First Release Version
